INTERVIEW SUMMARY

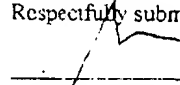

Sir:

This is a summary of the telephone interview between the Examiner and Dr. Alan Rosenthal of our staff, in the matter of the above-referenced patent application, that took place on Tuesday, July 10, 2001. We thank the Examiner for taking the time to conduct this interview.

The Examiner agreed to allow all the claims of the above-referenced patent application, based on the amendment that was filed on March 16, 2001.

The Examiner also agreed to address, by Examiner's amendment, the objections to the specification and the drawings that were noted in the Office Action mailed May 30, 2001. Specifically, "30" will be changed to --10-- on page 10 line 4 of the specification, and the connections between index registers 22 and correlators 20 in Figure 1 will be changed to double-headed arrows.

Respectfully submitted,

Mark M. Friedman
